My Portofolio: [www.webportof.herokuapp.com](http://www.webportof.herokuapp.com)

## ABOUT ME

---

I am a fresh graduate student from Universitas Mikroskil Medan, major Information Technology. I am focusing on frontend development and in my free time I like to learn about backend development and UI/UX Design.

## PROJECT

---

### Development of Applications for Diagnosing Nutritional Status in Toddlers with C4.5 Implementations Based on Mobile and Web

This application was created to assist posyandu nurses in recording and classifying existing toddler nutrition in Dusun Kamboja B Laut Dendang, North Sumatra. The application development method using waterfall with the following framework:

- Mobile Apps: React Native (Javascript)
- Web: Code Igniter (PHP)

Before launching the app, testing is carried out using the blackbox testing method based on the existing use case.

## Website Portofolio

Project that contains my biodata wrapped in a website. Built with HTML, CSS and ReactJS Framework.
